DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 3 and 7, drawn to a method for the treatment of epilepsy with a KCNQ 2/3 potassium channel opener.

Group II, claim(s) 9-13, drawn to a method for the preparation of a medicament with a KCNQ 2/3 potassium channel opener.

Group III, claim(s) 11, drawn to a method of treating using retigabine.

2. The inventions listed as Groups I, II, and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: they do not possess a special technical feature because a method of treating an ailment does not have the same prior art search for a method of making and production of a pharmaceutical medicament.

This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In order for more than one species to be examined, the appropriate additional examination fees must be paid. The species are as follows:

Muscle relaxant, fever reducer, anxiolytic, treating migraine, bipolar disorder, unipolar depression, functional bowel disorders, tinnitus, reducing dependence on an inducing agent, cancerous diseases, inflammatory process, ophthalmic diseases, and analgesia.

Art Unit: 1614

3. The claims are deemed to correspond to the species listed above in the following manner:

Claims 10-14

The following claim(s) are generic: claims 10-14.

4. A telephone call to the attorney is not required where: 1) the restriction requirement is complex, 2) the application is being prosecuted pro se, or 3) the examiner knows from past experience that a telephone election will not be made.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to D. C. Jones whose telephone number is (703) 308-4634. The examiner can normally be reached on Mondays through Fridays from 8:30 am to 6:00 pm. The examiner can also be reached on alternate Mondays.
